

International insurance solutions

We offer you protection – worldwide

Insure your company's locations abroad as reliably as your parent company in Switzerland. AXA offers you a customized overall approach with uniform worldwide coverage and local support.

Your requirement

Global expansion creates a wealth of opportunities – and harbors numerous risks. International companies therefore require customized and comprehensive insurance solutions. With AXA you know that you have an insurance partner at your side who can offer you comprehensive coverage for any location – and who knows all the relevant local conditions. This is because AXA itself is an international company with branch offices around the globe. We can make you an ideal offer which combines support in each locality with centralized administration in Switzerland. AXA meets your requirements through global solutions that provide uniform coverage for all your locations.

Your advantages

- Uniform coverage for all companies in Switzerland and abroad
- Inclusion of the unique legal requirements and business conditions that apply locally
- Claims management at all locations by local experts
- Risk engineering for locations in Switzerland and abroad
- Cost and premium optimization
- Full program overview and central control at all times

The number one among Swiss insurers

AXA has a presence in more than 90 countries

Efficient claims management and professional risk advice

Example of AXA's approach to developing an international insurance solution

Our approach has two main elements:

- The **master policy** covers the risks at all locations in Switzerland (including Liechtenstein). It also provides differences in conditions and differences in limits (DIC/DIL) coverage in for local policies outside Switzerland. This means your foreign locations can enjoy the same comprehensive coverage as those in Switzerland.
- **Local policies**, which we have issued at the foreign location, will cover the local risks.

Types of insurance

General commercial liability and product liability insurance

General commercial liability and product liability insurance covers the statutory liability of your company arising from hazards relating to premises, operations, products, and the environment. It covers bodily injury, property damage, and consequential financial loss.

Professional liability insurance (PI)

Professional liability insurance for advisory professions (e.g. lawyers, consultants, fiduciaries, auditors, and IT service providers) provides coverage for professional activities. The focus here is on claims arising from financial losses. It also covers liability claims arising from bodily injury and property damage.

Directors and officers liability insurance (D&O)

Directors' and officers' liability insurance protects you against liability claims arising from financial loss which are brought against the insured directors and officers of legal entities. All executive and non-executive directors and officers of a company are covered.

Property insurance

Property insurance covers damage to goods, installations and buildings caused, for example, by fire, natural hazards, burglary, water, and malicious damage. It also covers financial damage caused by business interruption following an insured event.

Engineering insurance

Engineering insurance covers damage to machinery, technical equipment and IT systems as well as lost earnings arising from unforeseen and sudden damage or destruction.

Other products

Other products (e.g. cargo insurance) can also be incorporated into an international insurance solution. We would be happy to provide you with any information you require.
