

Daily benefits insurance for employees /

Information sheet for employees leaving the company

Right of transfer to individual insurance

Insured persons resident in Switzerland are entitled to switch to AXA individual insurance when they leave the group of insured persons or if the contract is cancelled.

AXA grants coverage up to the amount of benefits insured to date, without any health examination, to such persons switching to individual insurance, in accordance with the conditions and rates valid in individual insurance. The state of health and the age upon entry in the daily benefits insurance for employees are decisive.

There is no such right of transfer:

- in the case of a change of job and transfer to a daily benefits insurance for employees with the new employer;
- if the benefits insurance for employees is placed with a new insurer and this insurer is obliged to maintain the same level of insurance coverage;
- for employees who have reached AHV retirement age.

This right of transfer lapses 3 months after the person concerned has left the group of insureds or the contract has been cancelled, or 3 months after he/she has received this information sheet.
